Evan Abrahamson

Recent Computer Science BS Graduate

253-753-4227

Spanaway, WA

www.EvStuff.net

Hi, I'm Evan! I am a recent graduate from the University of Washington with a Computer Science BS degree!

I am passionate about software development and creating the best experience possible for both users and fellow developers. I have a special interest in game development, data, and artificial intelligence. I am proficient in multiple languages such as Java, Python, JavaScript, C#, C, TypeScript, and more.

My ability to quickly adapt to new environments and challenges is complemented by my past successes, such as leading a team in planning and developing multiple projects, having the highest individual accuracy of my peers for a machine learning gender prediction model based on profile pictures, and comfortably utilizing new or unfamiliar programming languages.

I am very eager to contribute my skills and passion to a strong team and continue to evolve as a developer!

Work Experience

Tech Consultant • Target

Jun 2022 - Mar 2023

I worked as a Tech Consultant at Target, providing detailed and helpful information to consumers and colleagues in order to make the workplace safe, efficient, and kind. I was able to further my own knowledge of technology and people-skills.

Education

University of Washington	Final GPA - 3.51	Sep 2021 - Aug 2024
Bachelor of Science - Computer Science		

Skills

- Java, JavaScript + TypeScript, C, #C, Python
- SQL + Database Design
- Software Requirement Specification, UML Creation
- Machine Learning, Natural Language Processing (Multiple Classes and Projects)
- Assembly + Machine Code
- Project Management + Git
